*The Big Year of 2010*

**7:00 p.m. - Monday, Oct. 3rd**

Cole Wild is our speaker for our October program and will review for us his successful quest to set a record in 2010 for the most bird species seen in Colorado in one year!

Cole tallied an amazing 412 species last year and his presentation will illustrate the abundance of birdlife that visits our state through his beautiful photographs. Follow Cole's journeys with us to see some birds many of us have never seen. He will also point out some of the significant sites in Colorado to see both abundant and unique species. Mr. Wild has now recorded his year-long adventure in a fun-to-read book, "Wild Birding Colorado - The Big Year of 2010" which will be available for purchase and autographing after the presentation.
